METAVERSE TECH LANDSCAPE

Metaverse is a term used to describe a virtual universe of interconnected virtual worlds, games, and spaces. It is a rapidly growing field that has been gaining popularity in recent years, fueled by technological advances and increasing demand for immersive digital experiences.

This growth is driven by increasing consumer demand for immersive digital experiences and advancements in technology that make it easier to create and access virtual worlds. Metaverse had 400 million monthly active users.

- In USA Metaverse has 400 million monthly active users as of record in 2022
- Metaverse Market Size in 2022: \$61.8 billion
- Metaverse Projected to Gain US\$426.9 billion by 2027
- 53% of companies investing in the metaverse

HOW FUTUREALITI IS PLAYING ITS PART

Futurealiti is a company that is playing an important part in the field of Metaverse by developing technology and infrastructure to support the growth of the Metaverse. The company focuses on creating a decentralized, open-source platform that allows for creating and exchanging virtual assets within the Metaverse. Futurealiti is also developing tools and infrastructure to support the creation of immersive virtual environments within the Metaverse.

The company's platform allows for creating custom environments, including virtual worlds, games, and experiences, which users from anywhere in the world can access. This technology can potentially revolutionize entertainment, education, and other industries by allowing for fully immersive, interactive experiences in a virtual environment..
